

Dear Interns,

We hope that you all must have learned and benefited from the second week of sessions of GPCSSI 2021 and have found them to be very informative and valuable. Risk of Cybersecurity is increasing day by day, now we are connected across the globe and using cloud services to store sensitive data and personal information. Gurugram Police has started this workshop with the aim to stimulate need of Cyber Security and share best practices while working with internet or network based application. The upcoming sessions of the program are going to be equally informative and thought provoking, and we request all the participants to join these sessions on time, as per the schedule. We will emphasize again that the participants will immensely benefit from investing their time and efforts in completing the assignments and case studies provided by our eminent Speakers. The schedule for the upcoming week of the program is as provided below.
